EvenUp

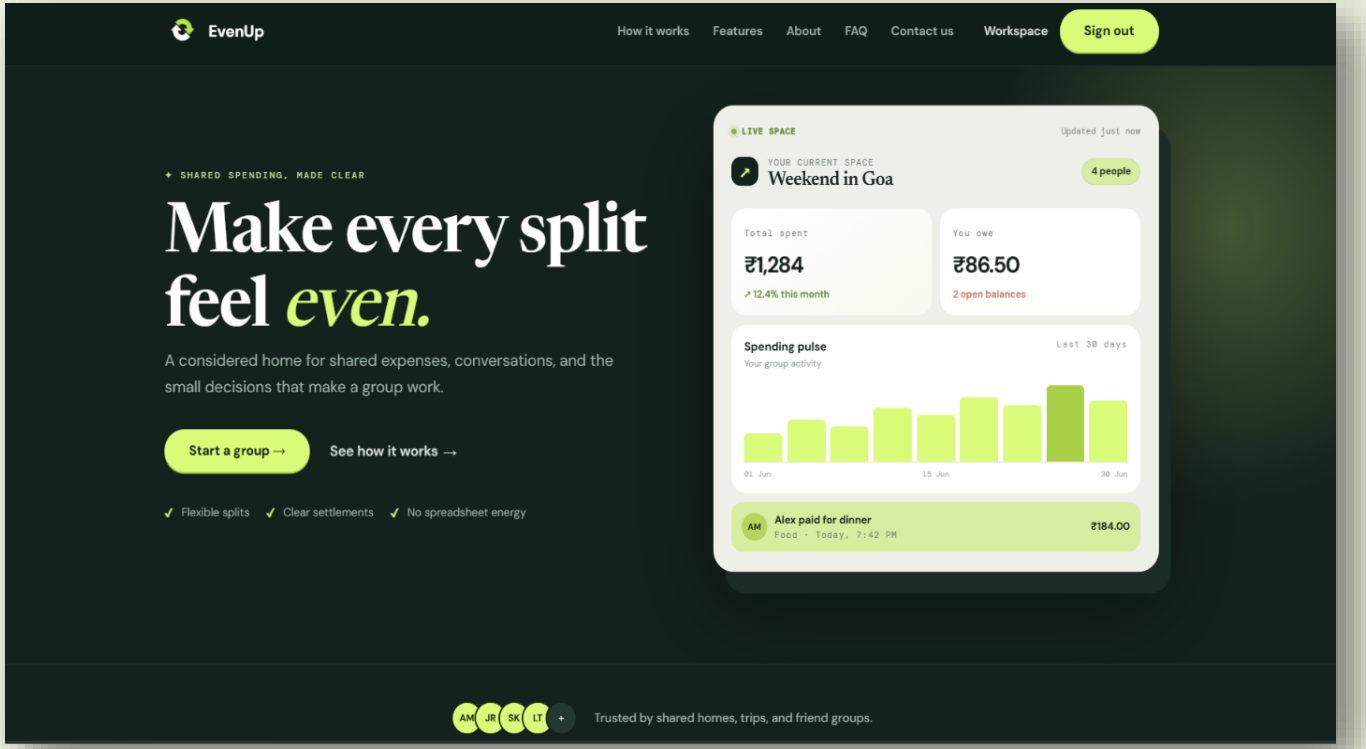

A Smart Shared Expense & Bill-Splitting System

PRESENTED BY:

Pratiksha Rajesh Gaikwad

Roll No. 66010

TY.B.Sc. Computer Science

Why EvenUp?

WHO PAID?

Different members pay for different items.

WAS IT SETTLED?

Chat-based payments may lack a durable record.

WHO OWES?

Not every expense involves everyone.

Manual notes → repeated calculations → confusion

HOW MUCH?

Manual calculations become difficult.

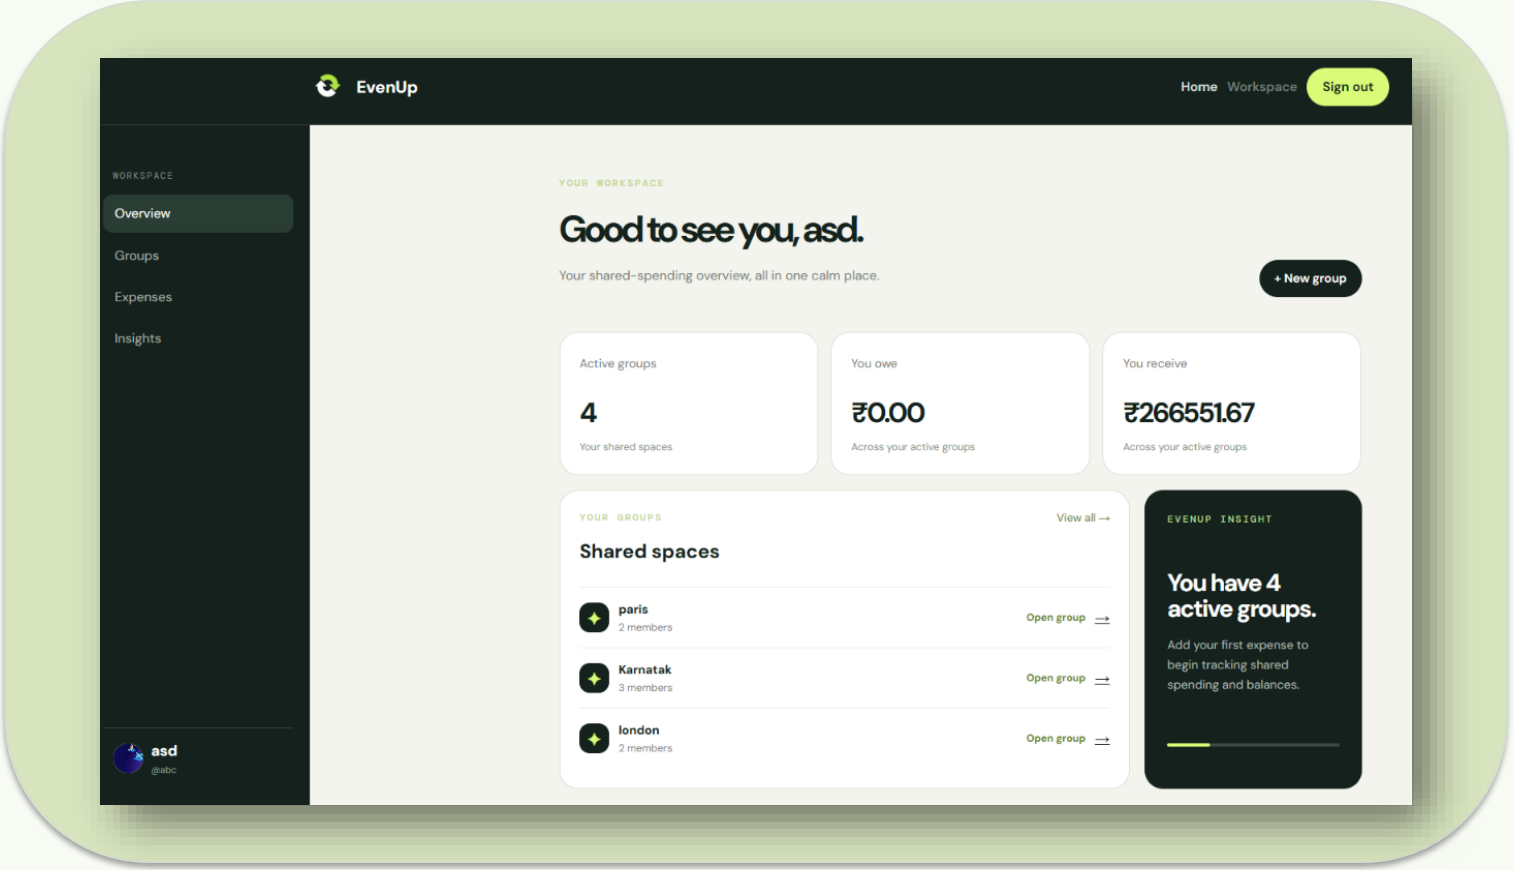

EVENUP'S RESPONSE

A shared, persistent record connecting people, expenses, shares, balances and settlements.

Our Solution:

One platform to record, split, calculate and settle shared expenses.

- User registration & login
- Group creation & members
- Equal / selected-member splitting
- Automatic balances & settlement suggestions
- Expense history & filters
- Insights, messages & reporting

Technology Stack

FRONTEND
HTML • Jinja Templates • CSS • JavaScript

BACKEND
Python • Flask

DATABASE
MySQL • mysql-connector-python

AUTHENTICATION
Werkzeug password hashing

•Optional Google OAuth

MODELLING
UML diagrams

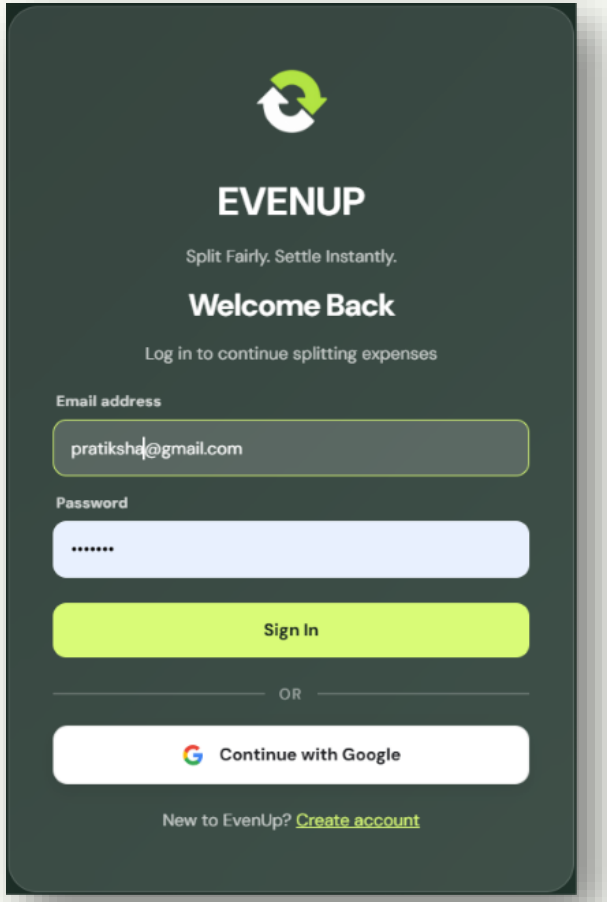

ARCHITECTURE
Layered Flask monolith

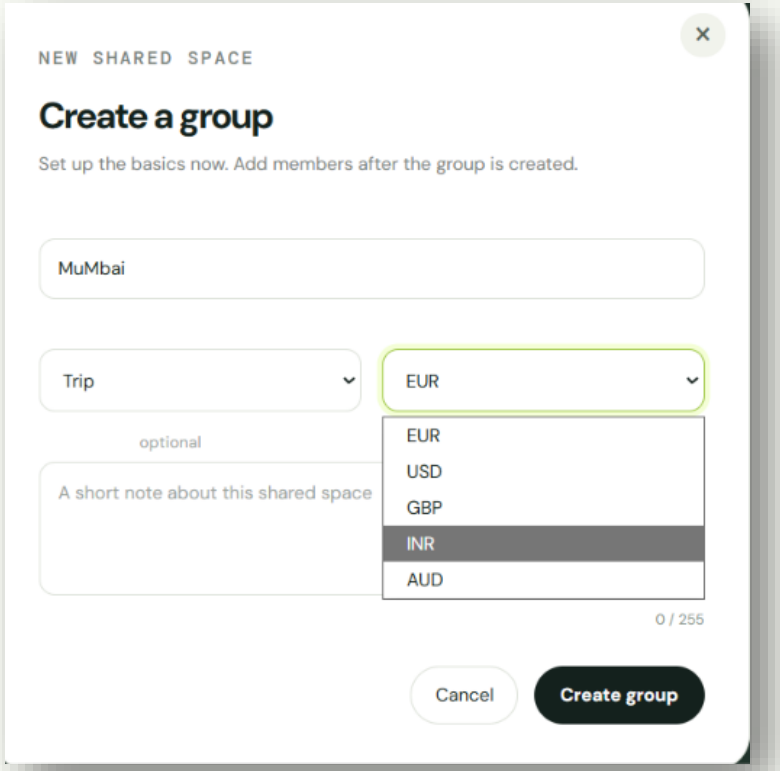

Browser → Flask + Jinja → MySQL

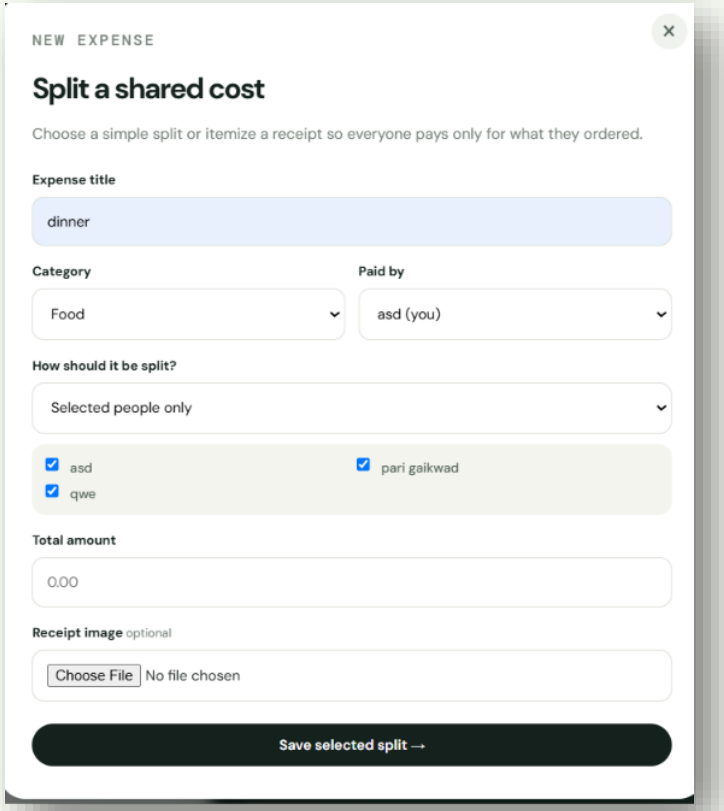

WHY THIS STACK?
Relational data + server-rendered workflows + suitable academic-scale deployment.

How EvenUp Works

1. Login → 2. Create Group → 3. Add Members → 4. Add Expense → 5. Split → 6. Calculate → 7. Settle

Core Logic : Expense to Settlement

Example: ₹1,200 dinner shared by asd,pari &que

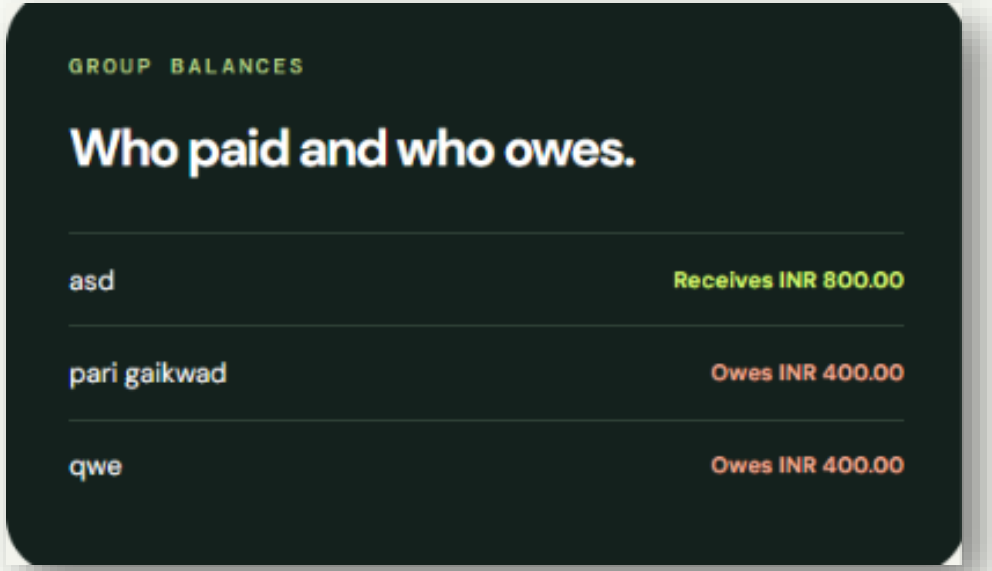

Member	Paid	Share	Balance
asd	₹1,200	₹400	+₹800
Pari	₹0	₹400	−₹400
que	₹0	₹400	−₹400

BALANCE LOGIC

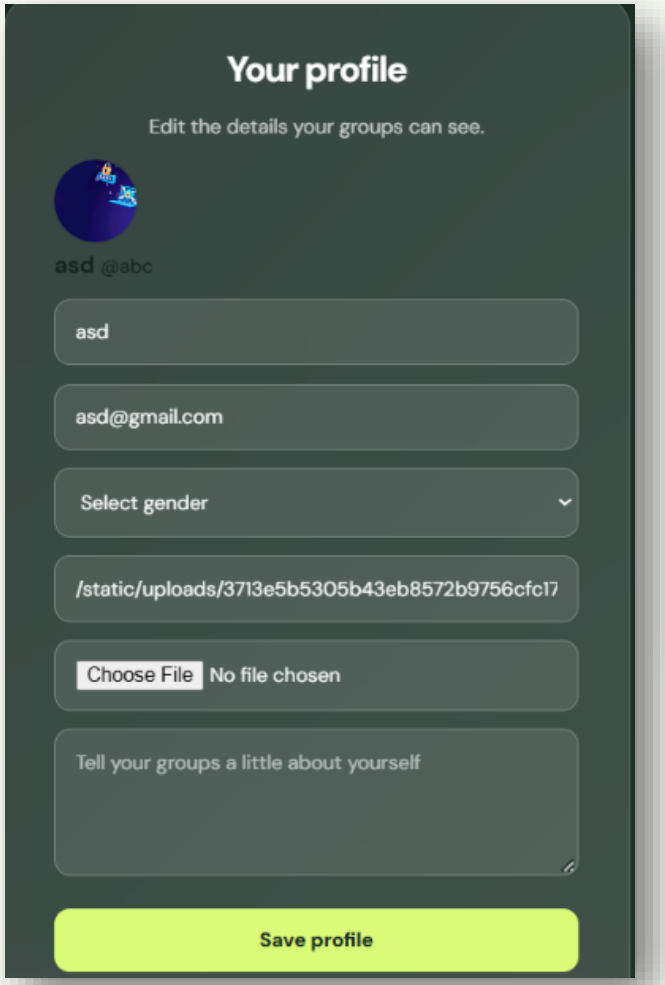

Positive balance → should receive | Negative balance → should pay

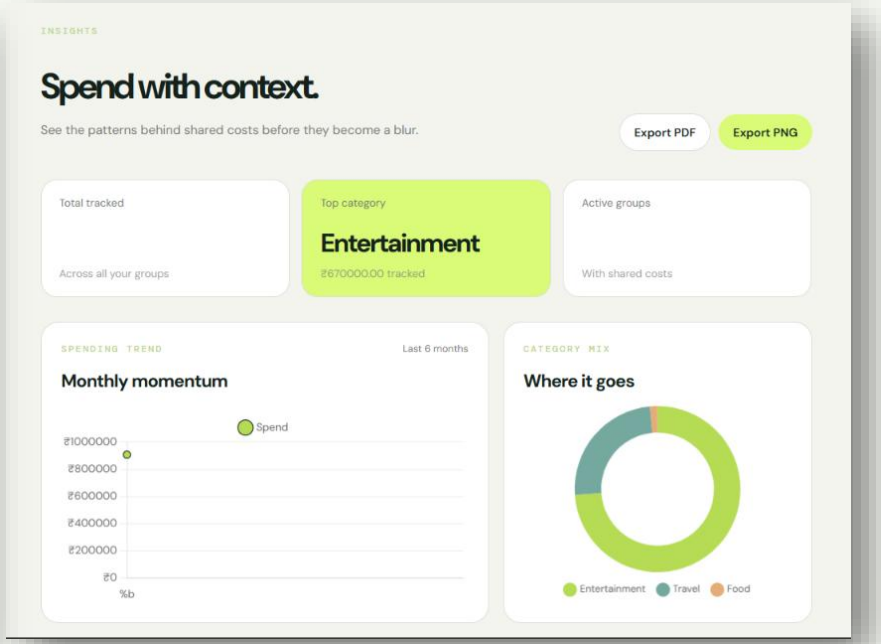

SETTLEMENT SUGGESTION

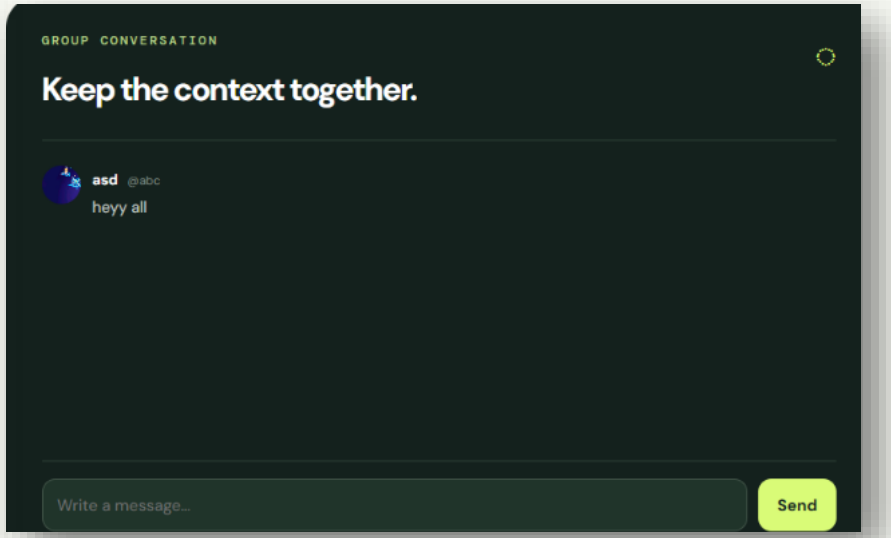

Bob → Alice : ₹600

Product Walkthrough -Key Features

THE WEBSITE GOES BEYOND BILL SPLITTING

- Searchable expense history
- Spending insights and trends
- Group communication
- Profile management
- Reporting/export controls

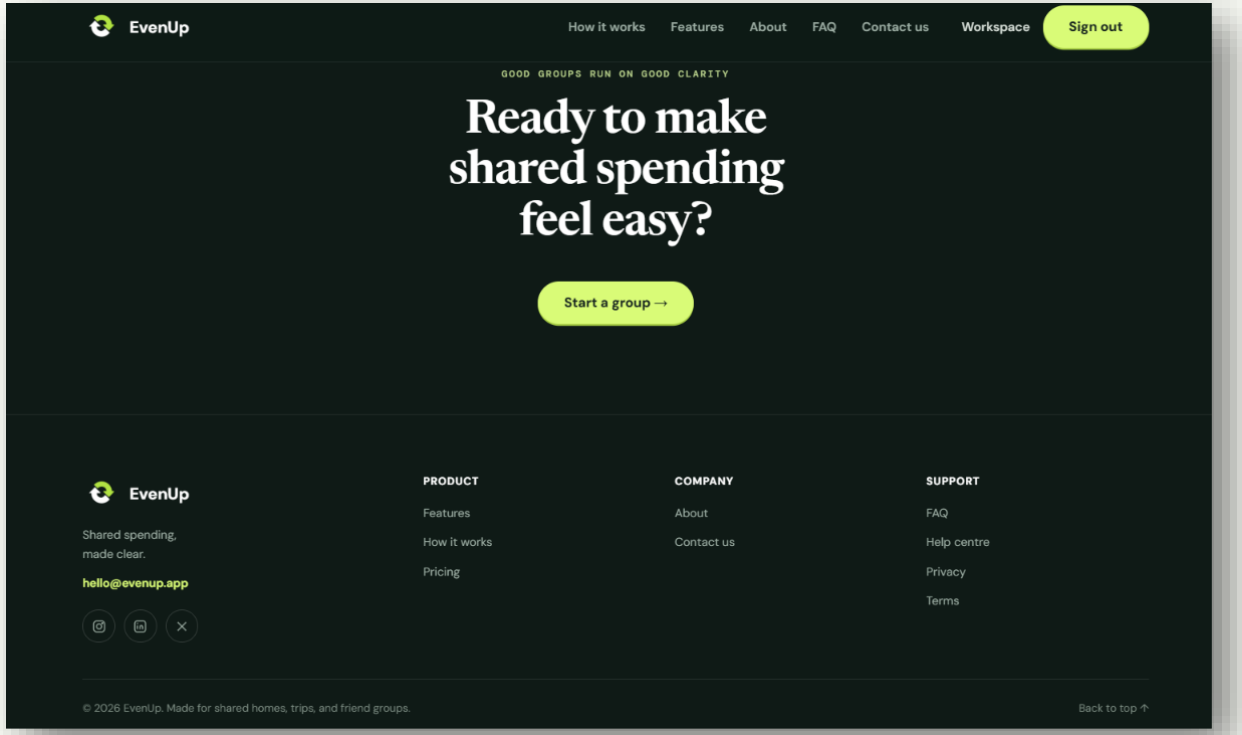

Conclusion & Future Scope

WHAT WE ACHIEVED

- ✓ Shared expense management
- ✓ Equal & selected-member splitting
- ✓ Automatic balances & settlements
- ✓ Expense history & insights
- ✓ Group communication & reporting

FUTURE SCOPE

- Multi-currency support
- Receipt attachments
- Notifications & reminders
- Payment gateway integration
- Role-based permissions
- Mobile application

“Split expenses. Clear balances. Better coordination.”
